

Flag 2 (Exported Activity)

Analysis & Exploitation Steps:-

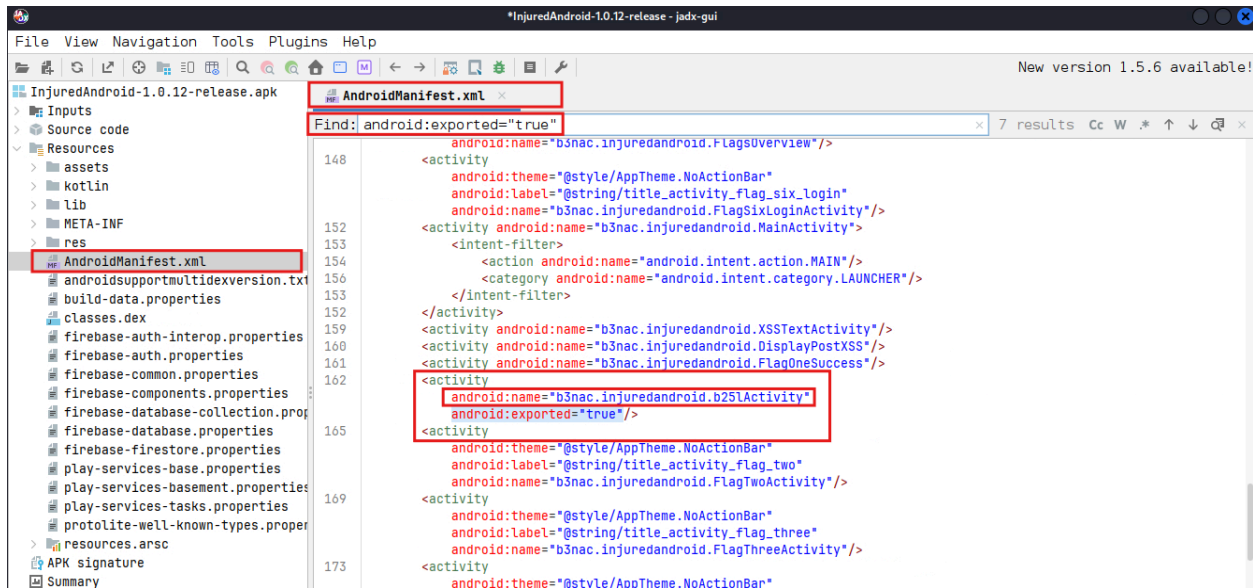

Figure 1: Analyzing AndroidManifest.xml for Exported Activities by Searching for the String (android:exported="true") and Found an Activity of Class "b3nac.injuredandroid.b25lActivity"

Figure 2: Displays the Decompiled Source for "b3nac.injuredandroid.b25lActivity" Class

```
.\adb.exe shell am start -n b3nac.injuredandroid/.b25lActivity  
Starting: Intent { cmp=b3nac.injuredandroid/.b25lActivity }
```

Figure 3: Displays Call the Exported Activity from ADB

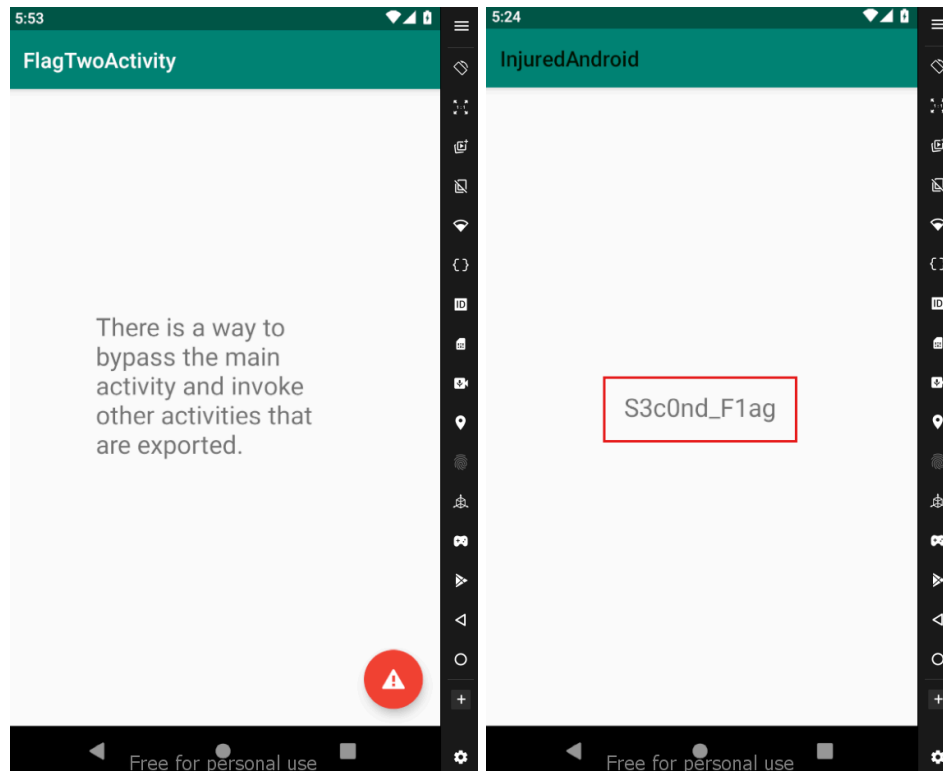

Figure 4: Displays Successful Submission of the Flag

Impacts:-

- **Allows unauthorized activity access, other apps can trigger exported activities & may expose sensitive functionality or data**

Remediations:-

- **Validate callers before processing requests, review all exported components & set android:exported="false" when possible**
